

BIG ANIMAL ENCOUNTERS?

Exploring British Columbia's rugged coastline since 1994

BIG ANIMALS ENCOUNTERS

EXPLORING SINCE 1994

We are the longest running marine tour company in the region.

The Campbell River area is ideally situated for some of the best marine encounters in British Columbia. With the narrow inlets, fast currents and an abundance of nutrients in the water, the area attracts a high concentration of **whales, marine mammals, coastal birds and bears.**

From your initial contact with our friendly and professional crew, we pride ourselves on ensuring that your day with us is a safe and **unforgettable Canadian experience.** As soon as you depart from the harbour you will be surrounded by towering mountain ranges, whirlpools, and beautiful islands.

We offer small, intimate and **immersive experiences** with a maximum of 12 passengers per vessel. We can accommodate free independent travellers, larger tours, or private groups.

MEET THE LOCALS

ORCA / KILLER WHALE

Largest member of the dolphin family. Highly social, sophisticated hunters, apex predators. Iconic resident and transient populations are found in BC.

HUMPBACK WHALES

Adults grow to 16 meters and weigh up to 30 tons! They migrate up to 15,000 miles each year, feeding on krill and small fish. A real crowd pleaser!

WHITE-SIDED DOLPHIN

Often seen in close-knit groups of 10-100, they love to bow ride! The Pacific white-sided dolphin live up to 40 years, and have their own unique names.

DALLS PORPOISE

Found only in the waters of the North Pacific and growing up to 2.3 meters in length, they feed on schooling fish and live up to 22 years.

HARBOUR SEALS

Each seal has its own unique pattern, they also lack an ear flap, just a canal. Growing to 1.8 meters and 130kg's, they inhabit much of BC's coast.

SEA LIONS

We're lucky enough to have the world's largest species - Steller sea lions, and the smaller California sea lions (noted by their high, domed forehead).

GIANT PACIFIC OCTOPUS

The largest species in the world, with an incredible arm span of over 4-6 meters! The GPO can sometimes be seen as food for hungry sea lions.

GRIZZLY BEARS

A Canadian icon with large coastal males standing over 3 meters tall! They hibernate for 5-7 months of the year, and feed on salmon and berries.

BLACK BEAR

Better eyesight, hearing and sense of smell than a human. Feeding mainly on vegetation during dusk or dawn light. Often seen along the BC coast.

BALD EAGLE

An iconic species found swooping down and feeding on fish, with a typical wingspan of 2 meters. It takes up to 5 years to attain their white heads.

GREAT BLUE HERON

Weighing around 2kg's, but with a wingspan of nearly 2 meters! Found stalking the shallow water and feeding on small fish, swallowing them whole!

WHALE AND WILDLIFE TOURS

4 HOUR WHALE & WILDLIFE TOUR
7 HOUR BIG ANIMAL ENCOUNTER

Join us as we cruise the local inlets, bays, and tidal rapids in search of large marine animals. Our naturalists help you look for humpback whales, orcas/killer whales, inquisitive sea lions, harbour seals, bald eagles, and even playful dolphins. Multiple daily departures.

HEAR THE WHALE SONG!

Our vessels are equipped with hydrophones, enabling you to actually hear the whales and dolphins as you see them!

GRIZZLY BEAR EXPEDITION

PRIVATE GROUP TOURS

Charter any of our boats for private and customizable tours for groups up to 12!

Welcome aboard a scenic two hour boat ride through spectacular Desolation Sound, where you'll be met by members of the Homalco First Nations, in their traditional territory. You'll be taken by road into the Great Bear Rainforest for a three hour land tour, where the *xawgəs* (grizzly bear), descend on the river to feast on salmon. Bute Inlet is one of the few places in the world where you can view grizzly bears on a single day marine tour. A stunning combination of scenery, marine life, First Nations culture, and grizzly bears - a signature Canadian experience.
